Love is in the air, and the luckiest among us will celebrate Valentine's Day with someone special. And if you're eating somewhere nice for the holiday, you're probably going to spend more than a few minutes waiting to be seated. Why not pass the time with Valentine-themed content in your favorite mobile game? We've got nine festive games for him and her that you won't want to put down when it's time to order. Bejeweled Blitz is the fast-paced spin-off of the original Bejeweled match-3 game. Games last for exactly one minute, so players have to rush to score as many matches and points as they can before the timer expires. With great leaderboard support and lots of helpful items to save up and buy, Bejeweled Blitz is one of the most addictive puzzle games out there. The Valentine's update to Bejeweled Blitz brings the following features: Heart Stone Rare Gem: This new Rare Gem replaces a portion of red gems with hearts, which explode in heart-shaped patterns and increase scoring potential with a multiplier effect. New starting boards: Each game now starts with a uniquely patterned game board. You can experiment with first moves to see how cascades fall and develop a starting strategy for the different game boards. Free coins: After playing the Heart Stone gem, tap one of the nine hearts that appears. Love-struck players can win up to 70,000 coins from the Bejeweled Blitz cupid. Bejeweled Blitz is perfect for fans of Candy Crush Saga, puzzle games in general, and bright, shiny things. "Aphrodite" event runs through February 16: Collect the new Aphrodite set of butterflies! Complete the Aphrodite set to receive a special rose decoration for your forest. Treasure chests from gifting to friends offer more chances to collect the event flower needed to attract the special limited butterflies. Flutter is a super cheerful game - but it does get grindy eventually. Free - Download Now (opens in new tab) The Gate from Spicy Horse Games and DeNA Craving something darker on this Valentine's Day? Fallen warriors awaken in the underworld with only one diversion to occupy themselves: large-scale deathmatches. Collect and build an arsenal of warriors as you progress through the single-player campaign. Engage in real-time strategy battles against the CPU or take the fight online against other players. The "Love Tale of the Marianas" event lasts through February 20: Top event players can win the limited Valentine's Day card. Earn limited Marianas cards through PvE quests, PvP arena battles, and captus! Use this code before Valentine's for free Bottle of Hope and Advanced Captus items: C-5S27-7D5G-AFCF The Gate presents an engaging mixture of real-time strategy and card collecting, but it's also very challenging. Free - Download Now (opens in new tab) GI JOE: Battleground from DeNA The boys can celebrate Valentine's Day with this game based on the classic G.I. JOE property and toy line. Collect, train, and assemble your own squad of heroic Joes or deadly Cobra operatives. Engage in card battles against the computer and other players. The card art is illustrated by actual G.I. JOE comic and action figure artists! The "When Worlds Collide" event lasts through February 19: Engage in an alternate world where anything can happen! Will Steeler and Baroness find love together or be pulled apart by their warring sides? If you loved reading G.I. Joe character bios as a kid, you'll love doing the same with the cards you collect in Battleground. Free - Download Now (opens in new tab) Hellfire: The Summoning from DeNA Perhaps a more macabre card collecting experience is needed to counteract the frilly hearts of Valentine's Day. Hellfire allows players to collect beautifully illustrated fantasy-themed cards and battle against AI or other players. The actual battles feature a unique interactive element: players roll boulders at targets in a fashion similar to skeeball. The "Valentinus" event runs through February 17: Valentinus has fallen in love with a pure-hearted girl, but her father rejects their love because of the differences in their families' wealth. Catch all of the Love Nymphs in the forest to help Valentinus marry the girl of his dreams! Card games, skeeball, and monsters go surprisingly well together. Free - Download Now (opens in new tab) Kingdom Age from GREEThe only city building game in our holiday roundup comes from GREET. Players will start with a small settlement and build it into a vast kingdom. To make things more interesting, you can also go on RPG-style quests in which you explore dungeons and fight monsters. With three different classes to play, hundreds of quests, and PvP combat, Kingdom Age offers much more depth than the average city builder. The "Star Crossed Lovers" event runs through February 17: The quest was inspired by a real-life couple who met in the game and eventually relocated to live together. Complete this three-quest chain to earn the coveted special edition reward: Kay and Sheera, Dark Strider Heroes (custom avatars of the aforementioned couple) who offer a sizable +3% Alliance Attack. We can't all expect romance from Kingdom Age, but the game's social elements are appreciated. Free - Download Now (opens in new tab) Monster Match from DeNA Collecting and raising a team of monsters is fun enough on its own. But throw a colorful puzzle game into the mix and watch out. Monster Match lets players explore dungeons and complete missions to find new monsters. The actual battles involve a gem-matching puzzle game, not unlike Puzzle and Dragons or Puzzle Quest. With the "Parrot Trap" event having just wrapped up, the Valentine event now lasts through February 19: A voodoo toucan judges a beautiful swan to be vain and transforms her to an ugly duckling. Complete the event to teach the swan the meaning of true love and return her to her proper form! Monster Match is cute and inviting, but sometimes you'll have to wait until your stamina recharges to keep on playing. Free - Download Now (opens in new tab) Word Science from WildTangent Studios To cleanse your Valentine's gaming palate, only a word game will do. Word Science puts players in charge of a laboratory of letters. These letters zoom in on a four-lane conveyor belt, and you must arrange them to form words before time runs out. Use power-ups or form longer words to boost scores to prove the hypothesis that you're the best word game player around. Valentine's celebration: Build words that involve the science of love and the celebration of Valentine's Day. Add one part English and one part Science and the result is a clever word game. \$.99 - Download Now (opens in new tab) Getting unlimited coins, gems, and money in a game is what everyone wishes.
